

## HARD SCHEDULE FOR GODDARD

Baseball Team to Play Freshmen Nines of Several Colleges

24 GAMES ARE NOW ARRANGED

Only Two Veterans of Goddard Teams Are Left for Nucleus

Manager Edward Flanagan of the Goddard seminary baseball team recently completed a schedule including 24 games, the most worthy opponents that a Goddard nine has ever faced. The schedule was composed with the hearty approval of Principal R. L. Davidson and with the official sanction of Coach Joseph Leachy. Harvard and Yale freshmen, Andover, Exeter, Dean, Spaulding and Montpelier seminary are some of the adversaries appearing on the list.

One of the features is a ten-day trip during which eight games are to be played with schools representing the very best interscholastic ability of New Hampshire, Massachusetts and Connecticut. The first game of the trip is with Andover academy on May 10, and the last with Yale freshmen in the Yale bowl at New Haven on May 18. Within these dates three teams will be met for the first time in the history of either school: Harvard freshmen, Yale freshmen and Simsbury academy of Simsbury, Conn.

Spaulding will be played at Lincoln campus on April 30, and at Inter-city park on Memorial day, May 30. Montpelier seminary, on the other hand, appears later, at Montpelier on May 21, and at Barre on June 17, the commencement game, and the last game of the season. Dartmouth freshmen will also be witnessed by a commencement audience, June 15.

Coach Leachy defines the prospects as very bright for a good team this year in spite of the fact that Kelley and Polli are the only veterans from last year's team. Kelley hails from Brockton, Mass., plays third base, and has been elected captain for the 1921 season. Polli is a Barre boy, who is well known locally for his ability as a pitcher, and who last year was the foremost hurler on the seminary nine. Others who appear, judging from past records, as promising material are: Pitchers, Luck, Cyran and McGarhan; catchers, Finn and Jackman; for first base, Connelly, Shattuck and August; for second base, Ringland and Crowell; for shortstop, Driscoll and Cyran; for third base, Hunt; outfielders, Wall and O'Connor. Coach Leachy is confident that with the beginning of spring training many "dark horses" will be forthcoming from the student body.

The schedule of 24 games, beginning April 19 and closing June 17, is as follows:

- April 19—Forth Ethan Allen at Barre.
- April 30—Spaulding high school at Lincoln campus.
- May 7—U. V. M. seconds at Barre.

## INDIAN PROPHETS PREDICT ANOTHER GREAT WAR

And After That There Will Be No More Wars, for the White Man's Heart Will Be Changed.

Mayetta, Kans., Jan. 18.—The Pottawatomie Indians recently finished a two days' dance and feast in honor of the new year. It was a celebration which every Indian on the reservation, a mile from here, attended, and many white guests were present, for the Pottawatomie feasts are famous for their quality and excellence. Barbecued beef is one of the favorite dishes.

The reservation is twenty-five miles from Topeka, the capital of Kansas, and contains about eleven square miles of land. Approximately five hundred Indians are living there, and the land is farmed. The white man's civilization has, of course, been absorbed by the Pottawatomies; they all speak English, and motor cars are commonplace among the red men.

"I can remember," Mat Septa, a young Pottawatomie, said, "when the dancers and medicine men used to prophesy at our dances of how the white man would one day ride in carriages without horses, and fly through the air like birds. We used to think that was very wonderful, but we have seen it happen. Our dancers also told of how there would be a great war among the white men, in which they would cross the sea to kill one another. That was the European war, I was in France sixteen months myself with the 38th division. A great experience. You know, what I liked about the army, you always had friends and were not lonesome. But I was glad to come home."

"Our people live softer than they used to. When I was a little boy, often they used to take us down to the bank of the creek winter mornings, and break the ice and make us jump in. That was to make us hard and strong. They don't do that any more with our boys."

"Our prophets tell of another great war that will come among the white men, and after that, they say, there will be no more war. They tell us that the white man's heart will be changed then, and that much of the land that once belonged to the Indian will be given back to him. I do not know. It is not good for people to have too much money in their pockets, for they spend it swiftly."

The Pottawatomies are proud of the fact that Charles Curtis, senior United States senator from Kansas, is of Pottawatomie ancestry, and still count him a member of their tribe, although they do not often see him on the reservation.

"His time is taken up in the city of the Great White Father," the Pottawatomies explain, "but his heart is friendly toward his people."

## VOTING ON NATIONAL TREE.

Thousands of American School Children Are Making Selection.

Washington, D. C., Jan. 18.—Thousands of American school children are voting this week to select a national tree. For three months a campaign has been going on all over the country under the auspices of the American Forestry association. Some votes already have been cast but this week sees the windup of what has been termed the national tree referendum.

At the same time, the referendum has been converted into an organized movement to educate school children in the varieties of trees. Collections of leaves have been made, the growth and habits of trees have been studied and discussed, and before the ballots have been cast, there have been joint debates in which the champions of different trees have set out arguments as to why some particular species should be selected as being truly national.

The first school to report a vote was Emory Stake academy of Castle Dale, Utah, the figures for which showed: Pine, 14; oak, 14; elm, 8; American ash, 4.

The first woman's organization to report was the Woman's Literary club of Jennings, La., which cast 30 votes solid for the oak.

## ROBBERS TOOK 12 MAIL SACKS

Part of Federal Reserve Bank Money Shipment Said to Be Included

ROBBERY OCCUPIED BUT FEW MINUTES

Police Believe That Robbery at Chicago Was an Inside Job

Chicago, Jan. 18.—Five youthful bandits held up a United States mail truck at the Union station here early to-day, escaping in an automobile with 12 sacks of mail, 10 of which contained registered mail. Police say that the best information obtainable indicates the pouches contained part of a federal reserve bank money shipment, which was to have been placed on a train leaving for St. Paul, Minn., at 2:30 o'clock a. m.

The bandits surprised three postal employees guarding the pouches and forced them at the point of guns back into the truck while the bandit car drew alongside and the 12 mail bags were transferred to it. The robbery was accomplished in a few minutes.

The regular mail was composed solely of city collections, the police say. The registered mail bags were supposed to contain currency and bonds whose value cannot be estimated yet.

One of the postal employees said that only a few minutes after they had arrived at the station with their truck the bandit car dashed up. The police believe the robbery was an inside job as the bandits seemed to have knowledge of the bank shipment as well as the time the truck would arrive and the number of men guarding it.

Thomas Carter, Richard J. Sliney and Philip Cahill, postal employees, said the five men, none of whom appeared to be more than 20 years old, all wore black masks and carried out the robbery in such a short time that the attention of a watchman and a railroad mail foreman, working nearby, was not attracted until the robbers were speeding away in their motor car with the 12 pouches.

Carter, who drove the mail truck, said he believed the bandit car followed him from the postoffice to the station.

## TRYING TO KEEP PORTUGUESE AT HOME

Newspapers of Lisbon Have Begun Campaign Telling of Unemployment Elsewhere.

Lisbon, Jan. 17.—The Portuguese newspapers have undertaken a campaign to prevent the continued emigration of Portuguese citizens to the United States and Brazil by pointing out that more than 2,000,000 workers are idle and hundreds of factories closed in the United States and that the Portuguese are not welcome in Brazil.

"Innumerable emigrants continue to arrive in Lisbon from all parts of the country on their way to Brazil and the United States," says the Seculo. "It is necessary to stop this avalanche and avoid this calamity, not only because the hundreds that are leaving this country are needed in the fields and workshops but also because they are going to suffer in a strange country all manner of sorrow and misery."

The same newspaper prints a letter from a Portuguese workman in a New Bedford, Mass., textile factory, who sent a warning to his fellow countrymen not to go to that city. He said that soon after he found employment he sent for his wife and children and they sold their farm in Portugal to pay for their transportation across the Atlantic. Thin illness and the closing of the factory reduced the family to extreme misery and the Portuguese now desires only to return to his native land. He declares that of the Portuguese who remain in New Bedford, many are in abject misery.

## SENTENCED FOR ATTACK.

Thomas E. Stewart of Rutland Blackened Much Older Man's Eye.

Rutland, Jan. 18.—Thomas E. Stewart of Rutland, aged 20 and a bartender, was sentenced by Judge Goddard in city court yesterday to serve 30 days in the house of correction for striking A. V. Duco, aged 69, and blackening Duco's eye.

According to the story of the prosecuting officer, Stewart approached Duco, while the latter was sitting down in a lunch cart on Dec. 21, and after asking the question, "Do you know what I have a mind to do to you?" struck Duco, knocking the man from his chair and blackening one eye. Attorney Jones told the court that Stewart was intoxicated when he did this. The two men had had a dispute some time before, the lawyer said. He explained that Duco and Stewart had since "made up" and Stewart had apologized. In view of the fact that Stewart had pleaded guilty, that he was a mere boy; that he was a steady worker and contributed largely to the support of his parents' family, the attorney asked that he be let off with a light fine or else be given a sentence and placed on probation.

Judge Goddard, in view of the fact that the assault was unprovoked, did not think that this would meet the ends of justice and pronounced the jail sentence. He said that a man who went about striking people every time he drank liquor was a dangerous person to have at large.

## HARDINGS ARE MOVING OUT

Furniture Is Being Shipped Away From House in Marion

PRESIDENT-ELECT GOING SOUTH SOON

He Is Now Engaged in Clearing Up the Business at Hand

Marion, O., Jan. 18.—The press of personal business which must be disposed of before his departure for the south, is engaging the attention of President-elect Harding and keeping his calendar free from the numerous appointments which have taken practically all of his time during the past few weeks. Few visitors, except personal friends, are expected here during the remainder of his stay.

John C. Shaffer, Chicago and Indianapolis publisher, who was here to-day to discuss the international situation with Mr. Harding at the latter's request, also was interested in cabinet appointments to the extent of advancing the views and cause of the old progressive wing of the Republican party. Mr. Shaffer, it is understood, believed that the cause could be advanced in the appointment to high office of his friend, Albert J. Beveridge or Indiana, although Mr. Beveridge himself had indicated no present aspirations for appointment.

Tangible evidence of the nearness of the departure of the Hardings was given by the people of Marion to-day, when a moving van backed up before the Mount Vernon avenue residence and began carrying away furniture. The house, made famous by its front porch during the campaign, is to be occupied by an acquaintance of the Hardings after March 4. Earlier plans for selling the dwelling have been abandoned.

## Don't Stay Run Down

If you have been indiscreet in eating, living habits, or your system taxed by overwork, and you have become all run down, don't stay that way. It is dangerous, as you are in a condition to take on many other more serious diseases. Build yourself up again by simply taking from 10 to 20 drops of SEVEN BARKS in a little water after each meal, and watch how quickly you will regain your normal health again.

People beyond the age of middle life cannot stand what they used to, and have to be more discreet in all of their modes of living. The majority of such people need to take occasionally a good stomach and liver regulator, for it is an indisputable fact that by keeping the liver active and the digestive organs cleansed and in proper working order, old age can be deferred and life prolonged far beyond that enjoyed by the average person. To attain this there is no better remedy than SEVEN BARKS, which has for many, many years faithfully and successfully served the public.

If your system gets run down, take warning, or you will be sorry when it's too late. Take plenty of exercise, fresh air, keep good hours, eat moderately of the right kind of food, and tone up your stomach, liver and kidneys by taking SEVEN BARKS. For sale by druggists, 60 cents per bottle.—Adv.

## FACTORY MEN ALSO GARDENERS.

Frick Coke Co. Employees at Connellsville, Pa., Raised \$332,000.

Connellsville, Pa., Jan. 18.—Garden products with a market value of \$332,

000 were raised in 1920 by employees of the Frick Coke company under the very glare of the thousands of coke ovens which dot this section of Pennsylvania. Much of this wealth came from the gardens which the company provides with every house, but some workers and their families were more ambitious than their neighbors and "farmed" 354 additional plots which the company leased for them.

The report of the welfare department of the company made public shows that 7,954 individual families engaged in the enterprise.

The report of the Frick company shows that it expended \$16,000 in promoting the gardening plan, and paid out in prizes \$2,194.24, while the workers and their families benefited from the gardens without any expense other than their labor.

The company will follow the plan this year. It provides for a flower or vegetable garden at every house occupied by one of its employees.
